Summary of the primary business

We operate in the electro-optical/infrared systems segment of the defence electronics. We design, develop and manufacture sensing, processing, communication and guidance systems for surveillance, reconnaissance, targeting, and control.

a. *Products*

Our products are classified into the following categories:

- 1) **Tactical systems** - These systems are focused on the functions of imaging, surveillance, reconnaissance and targeting. They are also used for detection, tracking, classification and neutralisation. Some examples of tactical systems include hand-held multi-sensor imaging systems (Bloodhound, Gazehound), driver vision systems (Minion), 360 degree situational awareness systems (WolfPack), thermal weapon sights (Spartan, Arjun), hand-held targeting systems (GeoUC).
- 2) **Platform systems** - We make two kinds of platform systems – (a) subsystems that can provide observation and fire control capabilities to a range of aerial, ground and weapon platforms and (b) end platforms that actually perform the task of threat neutralization.
 - (a) *Platform subsystems* - Examples of products that fall under this category are Avenger S50, Hummingbird family of gimbals, AGS30/ELPEOS fire control systems, TRAP missile seekers.
 - (b) *End platform systems* - We are now investing in the development of certain kinds of end platforms. One of these platforms is a loitering munition that can leverage our aerial targeting and seeker subsystem technologies.
- 3) **Directed energy systems** - To counter the threat of drone swarms, we have designed a portfolio of technology components that are being assembled into a high power microwave (“**HPM**”) platform with the brand name - WaveStrike. The HPM modules work together to generate, amplify, and direct high-power microwave energy with precision, ensuring effective neutralization of autonomous threats.

b. *Industries served and typical customers*

We have developed a portfolio of products that cater to the safety and surveillance equipment requirements of the armed forces, police, paramilitary and other security forces, thereby seeking to serve national interests. Our customers include NATO forces and US Special Operations Command, law enforcement and homeland security agencies and other global defence OEMs.

c. *Segment reporting and revenue contribution*

The Company has only one reportable segment, and the segment reporting requirements under Ind AS 108 “Operating Segments” are not applicable beyond the entity-wide disclosures presented in the Restated Consolidated Financial Statements.

f. Key facilities

We manufacture pilot engineering units of our products at our R&D centre at Bengaluru, Karnataka and outsource the large scale manufacturing of these products to electronic manufacturing service partners under non-exclusive manufacturing agreements. Currently, we work with Kaynes Technology India Limited and Avalon Technology and Services Private Limited.

g. Business strengths and strategies

Strengths

1. Leading defence technology solutions provider with pioneering proprietary technologies.

2. Driving innovation in defence electronics through in-house R&D with an asset light business model.
3. Among the few defence electronics OEMs with a wide acceptability across the globe.
4. Diversified defence product portfolio with deployability across all domains.
5. Sound financials with healthy performance.
6. Experienced and dedicated promoters and key managerial personnel with extensive domain knowledge.

Strategies

1. Continued investment in R&D to achieve defence modernization through development of new products.
2. Continued diversification of product portfolio.
3. Pursue strategic partnerships with OEMs.
4. Increasing our customer base through expansion into new geographies.

For further details of our business, see “***Our Business***” on page 245 of the Red Herring Prospectus.

Summary of the Industry

As per the F&S Report, India’s defence budget has demonstrated steady, if incremental, year-on-year growth over the past decade, reflecting both inflationary adjustments and a broader shift toward modernisation, strategic deterrence, and indigenisation. India’s defence spending is projected to increase steadily from USD 96.0 billion in FY2026 to USD 113.6 billion by FY2030, reflecting a compound annual growth rate (CAGR) of 4.3% over the forecast period. For FY2025–26, the Ministry of Defence has allocated ₹6,81,210.27 crore (≈USD 78.9 billion) to defence, of which ₹1,92,388 crore (≈USD 22.3 billion) is earmarked as capital outlay. For further details, see “***Industry Overview***” on page 160 of the Red Herring Prospectus.

* Not Annualized for the period ended June 30, 2026.

Note¹: The working capital days for period ended June 30, 2026 is 1,454 days and has been calculated basis 91 days for the said period. The working capital days for the three months ended June 30, 2026 are not directly comparable with those presented for the annual periods primarily due to the cyclic nature of the business and the concentration of revenue recognition towards the second half of the financial year. Accordingly, the working capital days are higher as compared to the annual periods presented. For further details, see “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” on page 405 of the Red Herring Prospectus.

Financials of our Company are taken from Restated Consolidated Financial Statements.

Notes:

1. Revenue from Operations means the Revenue from Operations for the year/period as appears in the Restated Consolidated Financial Statements.
2. Revenue Growth is calculated as a percentage of Revenue from Operations for current year minus Revenue from Operations for previous year divided by Revenue from Operations for previous year multiplied by 100.
3. Gross Profit is calculated as Revenue From Operations minus COGS; COGS is calculated as Cost of Materials Consumed plus Changes In Inventories of Finished Goods for the relevant year/period.
4. Gross Profit Margin % is calculated as Gross Profit divided by Revenue from Operations.
5. EBITDA is calculated as Profit / (Loss) before Exceptional and Extraordinary items and Tax plus Finance Cost, Depreciation and Amortisation minus Other Income.
6. EBITDA Margin% is calculated as EBITDA divided by Revenue from Operations.
7. PAT is Restated Profit for the year, net of tax as per Restated Consolidated Financial Statements.
8. PAT Margin is calculated as Restated Profit for the year, net of tax divided by Total Income.
9. Return on Capital Employed (ROCE) % is calculated as Earnings before Interest and Taxes (‘EBIT’) divided by Capital Employed; EBIT is calculated as EBITDA minus Depreciation and Amortization; Capital Employed is calculated as Total Equity minus Intangible Assets minus Capital Work-In-Progress plus Long Term and Short Term Borrowings and Deferred Tax Liability.
10. Return on Equity (ROE) % is calculated as Restated Profit for the year, net of tax divided by Average Shareholder’s Equity; Average Shareholder’s Equity is calculated as Total Equity as of the current year plus Total Equity as of the previous year divided by 2.
11. Net Tangible Fixed Asset Turnover is calculated as Revenue from Operations divided by Property, Plant and Equipment for the relevant year/period.
12. Working Capital Days is calculated as Inventory Turnover Days plus Trade Receivable Days minus Trade Payable Days. Inventory Days is calculated as Average Inventories divided by Cost of Goods Sold multiplied by number of days for the year. Trade Receivables Days is calculated as Average Trade Receivables divided by Revenue from Operations multiplied by number of days in the year. Trade Payables Days is calculated as Average Trade Payables divided by Purchases and Incidental Expenses multiplied by number of days in the year.
13. Export Share % in Revenue is calculated as Exports Sales divided by Revenue from Operations for the relevant year/period.
14. Revenue Split (Tactical) represents the revenue from Tactical Product Category at the end of relevant year/period.
15. Revenue Split (Platform) represents the revenue from Platform Product Category at the end of relevant year/period.
16. Revenue Split (Others) represents the revenue from Others Product Category at the end of relevant year/period. ‘Others’ include OEM component sales.

22. Orderbook Split (Others) represents the confirmed orderbook from Others Product Category at the end of relevant year/period.

For definitions of the above KPIs, see “**Definitions and Abbreviations – Key Performance Indicators**” on page 15 of the Red Herring Prospectus. Further, for comparison with the listed peer(s) and more detailed disclosure on such KPIs, see “**Basis for Offer Price - Comparison of our KPIs with listed industry peers for the Financial Years indicated below**” on page 145 of the Red Herring Prospectus.

Risk Factors

The following are the top 10 internal risk factors as disclosed in the Red Herring Prospectus:

1. Our business is cyclical in nature on account of it being geopolitically driven and subject to government budget cycles. Further, tender-based procurement cycle results in poor revenue visibility, which may have an adverse impact on our business, financial stability, results of operations, investor confidence, and the ability to secure financing for growth or innovation.
2. While we are not dependent on a single customer and we typically have short term, non recurring contracts with a majority of our customers which are based on tenders, some of our customers have contributed significantly to our revenue from operations in the last three Fiscals. If our customers choose not to source their requirements from us or to terminate our contracts or purchase orders or tenders, our business, cash flows, financial condition and results of operations may be adversely affected.
3. Our top ten suppliers contributed to a significant portion of our total expenses; 164.00%, 68.77 %, 35.46%, and 67.49% of our total expenses in the three months ended June 30, 2026 and the Fiscals 2026, 2025 and 2024, respectively. We are dependent on our top ten suppliers and failure to maintain our relationship with our suppliers could adversely affect our business, financial condition, results of operations and prospects.
4. We are dependent on limited global suppliers for critical components and other raw materials. The scarcity and cost of such critical components and raw materials could adversely affect our business, financial condition, results of operations and prospects.
5. As a global defence electronics OEM, our business is dependent on exports and the performance of geographies where we supply our products. In Fiscal 2025 and 2024, 65.52% and 48.61% of our revenue from operations was from exports and in particular from exports to Europe. Any adverse changes in the geographies where we supply our products could have an adverse impact on our business, cash flows, results of operations and financial condition.
6. We operate in an industry which is highly regulated and are subject to stringent government regulations. If we fail to comply with the applicable regulations and rules prescribed by the Government of India and the relevant statutory or regulatory bodies or fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required for our business, our results of operations and cash flows may be adversely affected.
7. We are measured against high quality standards and stringent performance requirements by our customers. Any failure by us to comply with these standards or performance requirements may lead to the cancellation of existing and future orders, recalls, liquidated damages or warranty and indemnity or liability claims, which could adversely affect our reputation, business, results from operations, financial conditions and cash flows.
8. We may be required to issue performance bank guarantees for quality defects or delay in delivery, which could adversely affect our reputation, business, results from operations, financial conditions and cash flows.
9. Any failure to protect or enforce our rights to own or use trademarks and brand name and identity could have an adverse effect on our business, goodwill and competitive position.
10. We derive a significant portion of our revenues from the sale of tactical systems, which represented 59.55%, 58.37%, 77.24%, 83.90% of our revenue from operations for the three months ended June 30, 2026 and Fiscals 2026, 2025, 2024, respectively. Any decline in the demand for our tactical systems would have an adverse effect on our business, financial condition, results of operations and cash flows.

For further details of the risks applicable to us, see “**Risk Factors**” beginning on page 21 of the Red Herring Prospectus. Investors are advised to read the risk factors carefully before making an investment decision in the Offer.
